

## Grav24, Second Circular

We are pleased to present the second circular for the Grav24—“Celebrating the 65th birthdays of Oscar Reula, Osvaldo Moreschi, and Carlos Kozameh”—. Grav24 is scheduled to be held in Córdoba, Argentina, from April 8th to April 12th, 2024.

Grav24 continues the tradition of the GravYY series, initiated in 2006 by the [General Relativity and Gravitation Group](#) at [FAMAF](#), Universidad Nacional de Córdoba. The conference aims to unite experts in gravitation and related fields, including classical and quantum gravity, data analysis, machine learning, mathematical relativity, numerical relativity, astrophysics, and astroparticle physics.

We welcome the participation of graduate and advanced undergraduate students, for whom limited financial aid might be available upon request.

### Important Announcements and Updates

- **Early Registration:** We kindly request that attendees complete their registration via the webform on [our conference webpage](#) by **March 18th, 2024**.
- **Registration Fee:** There is a registration fee of USD 100 for all participants, except for graduate and undergraduate students who are exempt.
- **Abstract Submission:** The deadline for abstract submission is **March 18th, 2024**.
- **Accommodation Information:** Detailed information about accommodation, including recommended hotels and rental options, is now available on [our conference webpage](#).
- **Confirmed Invited Speakers:**
  - Miguel Bezares, The University of Nottingham, UK.
  - Saulo Carneiro, Universidade Federal da Bahia, Brasil.
  - Jörg Frauendiener, University of Otago, New Zealand.
  - Diego García Lambas, Instituto de Astronomía Teórica y Experimental, CONICET, Argentina.
  - Ana Laura García Perciante, Universidad Autónoma Metropolitana, México.
  - Elizabeth Gonzalez, Universitat Autònoma de Barcelona, Spain.
  - Kenta Kiuchi, Max-Planck-Institut für Gravitationsphysik, Potsdam, Germany.
  - José Luis Jaramillo, Institut de Mathématiques de Bourgogne, France.
  - Philippe LeFloch, Sorbonne Université, France.
  - Luis Lehner, Perimeter Institute for Theoretical Physics, Canada.
  - Thomas Mädler, Instituto de Estudios Astrofísicos (UDP), Chile.
  - Alejandro Pérez, Centre de Physique Théorique, Aix-Marseille University, France.

- Martín Reiris, Centro de Matemática, Universidad de la República, Uruguay.
  - Milton Ruiz, Universitat de Valencia, Spain.
  - Masaru Shibata, Max-Planck-Institut für Gravitationsphysik, Potsdam, Germany.
  - Thomas Sotiriou, University of Nottingham, UK.
  - Miguel Zilhão, Universidade de Aveiro, Portugal.
- **Further Assistance:** Should you have any questions or require additional information, please do not hesitate to contact us at [gravconference@gmail.com](mailto:gravconference@gmail.com).

Information about previous Grav meetings can be found on [our group webpage](#).

Looking forward to seeing you at Grav24.

Warm regards,  
The Organization Committee.

**The Grav24 Conference will be held under the auspices of:**

[Facultad de Matemática, Astronomía, Física y Computación, UNC](#)

[International Centre of Theoretical Physics](#)

The Abdus Salam  
**International Centre  
for Theoretical Physics**

[Consejo Nacional de Investigaciones Científicas y Técnicas](#)
